

25 November 2009

### Parents' Information Evening

We will be holding two information evenings over the next few weeks:

- Tuesday 1<sup>st</sup> December 6 – 7pm
  - **Maths at Crossdale**  
This will be an opportunity for us to provide a little more information about how maths is taught at Crossdale and what you can do at home to help. We will particularly focus on written calculations. There will also be an opportunity for you to talk informally with your child's class teacher about concepts and strategies which have confounded you!
  
- Tuesday 8<sup>th</sup> December 6 – 7pm
  - **Virtual Learning Environments (Fronter) and e-safety**  
Many of you will have been pestered over recent months by your children for increased computer time at home to use 'Fronter'. The purpose of this information evening is to throw some light on why we use Fronter and what issues you need to consider when using it at home. We will also discuss other issues related to the use of ICT in school

**If you are planning to attend either evening, please complete the slip below, and return it to the school office, indicating how many places you require for each evening. Alternatively, please email your reply to the school office with 'Information Evenings' in the subject line.**
