

Dear Parents and Carers,

Welcome to our Crossdale News - we hope that you enjoy reading our newsletter!

Each class has a blog page where information for your child's class will be shared; please ensure you subscribe to this by clicking the link at the top of the page. If you aren't receiving notifications of blog entries, please check that you are subscribed to the blog page or speak to your child's class teacher; this is an important way to stay up-to-date with what your child might be doing in class as well as a way of us communicating important information to you.

Best Wishes,

Mr. Cresswell, Mrs. Westie & Miss Seedhouse

## Reopening to all pupils

We are very much looking forward to welcoming all pupils back to school on Monday 8<sup>th</sup> March. We know that the children will have mixed emotions about returning and we have been busy discussing ways in which we can help children settle back into school as quickly as possible.

Your child's class teacher has posted a video on seesaw or the year group [blog pages](#) so have a look at this ahead of Monday – hopefully it will be reassuring for your child to watch.

We will spend time looking at our rainbow rules next week and will ensure that our focus is on the children's wellbeing as they settle back into school routines.

Please check through the information on the [school website](#) regarding the full opening of school; there is information in this post regarding start and end times and reminders that will be helpful ahead of your child's return on Monday morning.

## Red Nose Day – Friday 12<sup>th</sup> March 2021

On Friday 12<sup>th</sup> March it's Red Nose day. To help support the comic relief charity we'll be having a non-uniform day where we're asking everyone to wear something red. If you wish to make a contribution to the charity, teachers will collect any donations from the children on the way into school.

## Hand Sanitiser in school - reminder

If your child wishes to bring their own hand sanitiser into school, please ensure that this contains a

**minimum of 70% alcohol**, as anything below this does not meet the required standard to be classed as virucidal. Not all hand sanitiser has enough alcohol to be protective against coronavirus (some only have 50% alcohol), where the required amount is 70% minimum. We ask that should your child bring their own hand sanitiser into school, it is stored in their classroom tray for health and safety reasons.
