

**This half term our topic is based around how knitting changed Keyworth. Please choose at least two of these home-work activities to complete to help enrich your learning. Please share these with your class and teacher on Wednesday 15th October.**

Using a piece of cardboard and wool, have a go at creating a cardboard loom.

Write down the different types of jobs your family members do (currently) and present this information however you would like to.

Ask a parent, grandparent, or neighbour: “Do you know anything about the Framework Knitters or old Keyworth?” and write down what you found out.

Draw you in your favourite outfit and label what the items of clothing are made from.

Try weaving two small pieces of fabric together to represent how cloth was made and bring it in to show your class.

Does your house have any cool, historical facts? Try and do some research to find out any thing interesting about it and present it however you would like to.
