

Maths—Key Instant Recall Facts

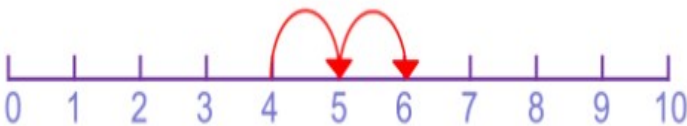

Challenge 1.1

Before moving onto the next challenge, your child should know the following facts. The aim is for them to recall these facts **instantly**.

KIRF Challenge 1.1: Counting forwards and backwards within 10.

10, 9, 8, 7 ... *blast off!*

In addition you can help by practicing the following:

Finding one more or one less within 10	One less is 7  one more is 9
Comparing numbers within 10 (less than, greater than, equals to)	 $>$ 
Number lines to 10	

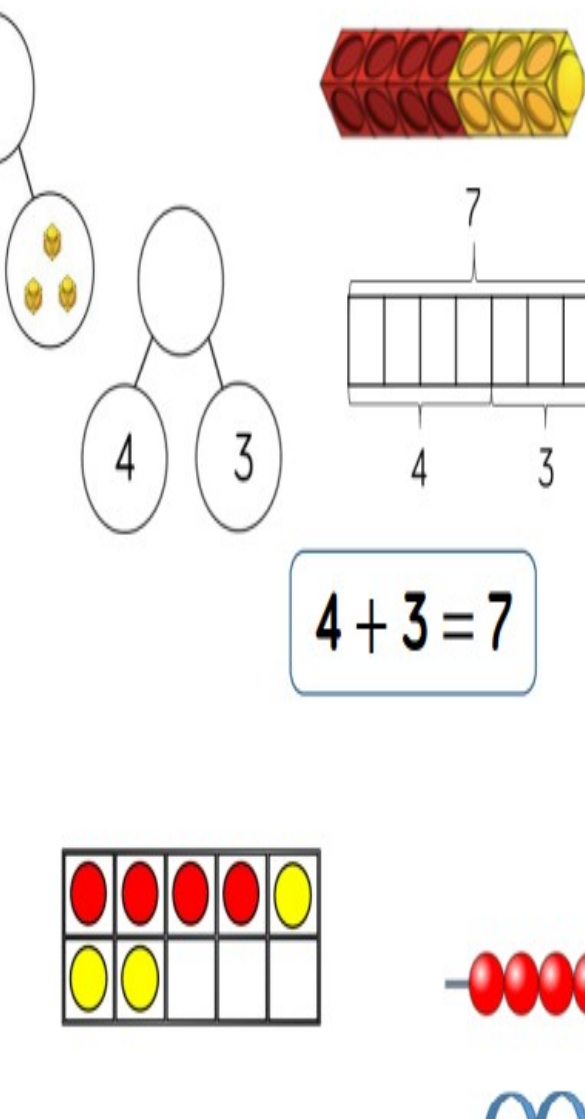

Top Tips

The secret to success is practicing little and often. Use time wisely. Can you practice these KIRFs while walking to school or during a car journey? You do not need to practice them all at once; perhaps you could have a fact of the day. If you would like more ideas, please speak to your child's teacher.

Calculations

Challenge 1!

Children will learn addition using the following methods.

Skill: Add 1-digit numbers within 10	Year: 1
	<p>When adding numbers to 10, children can explore both aggregation and augmentation.</p> <p>The part-whole model, discrete and continuous bar model, number shapes and ten frame support aggregation.</p> <p>The combination bar model, ten frame, bead string and number track all support augmentation.</p>
