

Ancient Egyptians Topic Homework Spring 2

Design and create a small model of an Ancient Egyptian pyramid using any materials you have at home.

Before you build, research:

- What real pyramids look like
- How the Ancient Egyptians built the pyramids

Your pyramid must include accurate details!

You may also add a small fact card with 3-5 facts you learned.

Explore the types of food eaten in Ancient Egyptian times. Then design a menu for a restaurant using only foods that would have been available at that time.

Research and create a poster about an Egyptian god/goddess. What were their powers? Symbols? How did the Egyptians worship them?

Find out what happened to Egypt after the death of Cleopatra VII - the last pharaoh. Present your findings in a poster with text and pictures!

Create a holiday brochure about modern day Egypt.

Where is Egypt?

What is it like?

What is there to do?

You could also research how much it would cost for your family to visit!

Create a fact file about an Egyptian pharaoh! When did they reign? What did they achieve? Where is their tomb?
