

Half-term Topic homework – The Human Digestive System

Pick an idea or two from the list below and enjoy using your knowledge about The Human Digestive System to create, design and write!

Creative tasks

- **Create a 3D digestive system model** (playdough, cardboard, or recycled materials) and label the organs
- **Design a poster** showing the journey of food through the body
- **Make a comic strip** about a piece of food travelling through the digestive system

DT / innovative ideas

- Build a **digestive system maze or game** showing the route food travels
- Make an **edible model** using sweets or food to represent organs
- Create a **lift-the-flap book** explaining each stage of digestion

Written / literacy links

- **Diary entry from a piece of food** travelling through the body
- **Explanation text:** "How digestion works"
- **Fact file** about each organ (mouth, stomach, intestines)
