

What do I already know? Children can identify, name, draw and label basic parts of the human body and say which part of the body is associated with each sense.

Science : YEAR TWO, AUTUMN 1

BIG IDEA: What do our bodies need to survive?

KEY VOCABULARY

adult	A fully grown animal or plant.
exercise	A physical activity to keep your body fit.
hygiene	How we keep ourselves and the world around us clean so we can stay healthy and stop spreading germs.
offspring	The child of an animal.
reproduction	The production of offspring. The process of copying something.
survival	The state of continuing to live.
temperature	The internal heat of a person's body.

What do we need to survive?

To grow into a healthy adult, we must eat the right types of food in the right amount and **exercise**.

Eat less often and in small amounts.

oil and spreads
Choose unsaturated oils and use in small amounts.

Being active and **exercising** keeps our bodies and minds healthy.

To stop germs from spreading, it is important to be **hygienic**.

What stages do human offspring go through?

Some **offspring** look like their **adult** when they are born.

Some **offspring** do not look like their **adult** when they are born.
